

Vehicle Registrars Annual Report by David Reid

Another 12 months has passed, and during this period a large influx of new members continue to join the Clubs to access Code 404 Registration for their vehicles.

Along with this reduced cost of registration comes restrictions and conditions, and I would strongly advise these vehicle owners to make themselves familiar with same. These conditions are listed on the CMC Website.

During the year I have had three meetings, along with Murray Lizatovich and Paul Blank, representing the CMC, with the Minister for Transport personnel and the head people in Transport to help develop a new Concession for Modified Vehicles. This Concession is near completion, with owners of Modified Vehicles being well looked after and those on Code 404 seeing minor changes – more positive than negative.

One assurance I was given by the Minister's Representative was - no change to the cost of 404 Registration.

More detail will be forthcoming when the Minister has made final release to the public.

Finally I would like to thank the Transport Personnel, along with the Minister's Representative who we have been dealing with in their cooperation and friendly discussion at all times.
